Report: ICT support is used by trainees

The Institute of Learning and Teaching (ILT) employs a comprehensive and advanced approach to teaching and learning by integrating Information and Communication Technology (ICT) into various aspects of its educational processes. Here's an elaborate breakdown of how ILT practices ICT-based teaching and learning:

Online Admission Process:

- Trainees initiate their educational journey by completing the admission process entirely online.
- They fill out admission forms, and participate in personal interviews through digital platforms.
- The entire process is streamlined, eliminating the need for trainees to visit a central admission committee in person.

Google Classroom Integration:

- ILT incorporates Google Classroom as a routine practice for trainees.
- Faculties utilize this platform to share resources, assignments, and facilitate discussions.
- It serves as a centralized hub for communication and collaboration among faculty and trainees.

Video-Based Teaching and Learning:

- Faculties create educational videos that cover various topics, fostering an engaging and dynamic learning environment.
- Trainees also contribute by preparing videos of micro-teaching sessions and other presentations.

Institute of Language Teaching

Ref :

Date :

Online Evaluation:

- ILT conducts evaluations through online platforms, ensuring efficiency and accessibility for trainees.
- Trainees can take exams and assessments remotely, providing flexibility in their learning schedules.

E-Content and Online Tests:

- ILT maintains a rich collection of e-content, including online test modules accessible through the institute's website.
- Trainees can take tests at their convenience, promoting a self-paced learning approach.

Mobile Learning and LMS:

- ILT provides a Learning Management System (LMS) accessible through mobile devices.
- This enables trainees to access course materials, assignments, and other resources on-the-go.

Wi-Fi Campus:

- The entire ILT campus is equipped with Wi-Fi, ensuring seamless connectivity for trainees and faculty.

Biometric Attendance and Applications:

- Bio-metric applications are in place for attendance tracking, streamlining the process and minimizing manual efforts.

INFLIBNET Connectivity:

- ILT is connected with INFLIBNET, allowing trainees and faculties access to a vast array of e-journals and e-books for reference purposes.

Institute of Language Teaching

Ref :

Date :

Feedback System:

- ILT has implemented an online feedback system, facilitating continuous improvement based on trainee input.

Technology-Enabled School Lectures:

- Trainees leverage technology to conduct lectures in schools, integrating innovative teaching methods.

In summary, ILT's extensive integration of ICT in its teaching-learning processes demonstrates a commitment to modern, accessible, and flexible education, fostering a tech-savvy learning environment for trainees and faculty alike.

1.Enriching E-content by ILT B.Ed College Faculty on YouTube and Instagram

Dr. Nehal K Shingala has developed insightful e-content on YouTube and Instagram, covering topics such as Grammar Translation Method, Handwriting Causes Remedies, Communication, Multi-Sensory Approach, Simulation, Stray-Unit Lesson, Teaching Machine, Spelling Causes & Remedies, Reviewing Textbook, and Types of Questions. Similarly, Dr. Jiten Udhas has contributed engaging content on Vocabulary Building, Education Psychology, and a Comparative Analysis of Philosophical Theories encompassing Realism, Naturalism, and Idealism. Dr. Mohitgiri Goswami's e-content focuses on Programmed Learning, Mental Health, Advance Organizer Model, Action Research, Programmed Learning Part-2, Measures of Central Tendency, and Individual Differences. These comprehensive resources serve as valuable educational tools for students and educators alike.

2. Google Classroom: Gateway for Updated E-Content by ILT B.Ed College Staff

At ILT B.Ed College, we pride ourselves on maintaining an interactive and technology-infused learning environment, and our Google Classrooms stand as a testament to this commitment. These virtual spaces, carefully curated for each subject, serve as centralized repositories of subject-specific E-content, ensuring students have immediate

Institute of Language Teaching

Ref :

Date :

access to relevant materials. What sets our approach apart is the collective effort of our dedicated staff members, who actively contribute to these platforms.

All staff members play a pivotal role in adding valuable E-content to the Google Classrooms. From insightful video lectures to presentation slides, supplementary reading materials, and interactive quizzes, these contributions enrich the digital learning experience. This collaborative effort ensures that students benefit from a diverse range of multimedia resources curated by experts in their respective fields.

Subject-wise Google Classroom Links for Semester 1, Semester 2, Semester 3, and Semester 4 further underscore the comprehensive nature of our E-content delivery. By fostering a culture of continuous contribution, ILT B.Ed College strives to create a dynamic and engaging online learning space, where faculty-student collaboration thrives, and the pursuit of knowledge is both accessible and rewarding.

4.ILT's Principal Dr Nidatt Barot's Initiative - Scholar Sprint: Empowering Competitive Exam E-Preparation with MCQs

In the rapidly evolving landscape of competitive exams, ILT takes a bold step forward with its Principal Initiative - Scholar Sprint. This ambitious project stands as a testament to ILT's dedication to holistic education by providing a robust platform for E-preparation through a multitude of Multiple Choice Questions (MCQs). The initiative covers a broad spectrum of subjects, including Education Policy & System, Health & Wellness, Social & Civic Education, Language & Grammar, General Knowledge & Awareness, and Computer & Technology.

This dynamic and inclusive approach ensures that students not only strengthen their conceptual understanding but also stay abreast of current affairs and relevant topics. From assessments on Indian National Symbols to evaluations of Computer Hardware, Scholar Sprint aims to be an indispensable resource for students aspiring to excel in competitive exams. ILT's commitment to quality education is reflected in this innovative initiative, where Scholar Sprint emerges as a valuable tool for elevating the exam preparedness of aspiring candidates

Online Lesson Planner

The groundbreaking solution offered by the Institute of Language Teaching in the field of educational technology was represented by an Online Lesson Planner that embodied a distinctive approach, maximizing the potential of Information and Communication Technology (ICT). This one-of-a-kind platform not only streamlined the lesson planning process but also harnessed the power of automation to seamlessly generate PDF documents. With a user-friendly interface and a commitment to efficiency, details were effortlessly input by educators, allowing the system to compile comprehensive lesson plans swiftly. The emphasis on customization ensured adaptability to various teaching styles and subjects. By incorporating cutting-edge ICT features, the platform stood as a testament to the transformative impact technology had on education, fostering a more streamlined and effective teaching experience for educators and a richer learning experience for students.

Report on the Integration of ICT in the "JOSH" University Level State Sports Event Management by the Youth Welfare Committee

Introduction:

The "JOSH" University Level State Sports Event, organized by ILT B.ED College, witnessed efficient and streamlined management through the adept use of Information and Communication Technology (ICT). The Youth Welfare Committee played a pivotal role in harnessing various digital tools, with a significant emphasis on Google products and Miro, to enhance the overall event management process.

I. Google Products:

Google Sheets:

Data Management: Google Sheets was extensively used for managing participant registrations, scheduling events, and tracking results. The collaborative nature of Google Sheets facilitated real-time updates and seamless sharing among committee members.

Google Documents:

Collaborative Planning: Google Documents provided a platform for collaborative planning, where committee members could collectively draft event guidelines, rules, and other essential documents. The commenting and editing features improved communication and document version control.

Google Maps:

Venue Planning: Google Maps played a crucial role in venue planning and logistics. The committee used it to mark event locations, accommodation facilities, and transportation routes. This enhanced the efficiency of coordinating resources and ensuring a smooth flow of events.

Institute of Language Teaching

Ref :

Date :

Google Sites:

Information Dissemination: Google Sites served as a central hub for event-related information. The committee created a comprehensive website to communicate schedules, rules, and other relevant details to participants, spectators, and stakeholders. The user-friendly interface ensured easy access to information.

Google Drive:

Document Storage: Google Drive was the primary repository for storing and sharing event-related files. It facilitated organized storage of documents, photos, and videos, ensuring easy access for committee members and relevant stakeholders.

II. Miro:

Miro:

Collaborative Visual Planning: Miro was employed for collaborative visual planning and brainstorming sessions. The committee utilized Miro's digital whiteboards to map out event workflows, design seating arrangements, and visually plan logistical aspects. This visual collaboration enhanced creativity and clarity in decision-making.

DataStudio:

Dashboard Creation: Google Data Studio played a pivotal role in transforming raw data into insightful visualizations. The committee created dashboards to monitor participant registrations, event attendance, and performance metrics. These dashboards provided real-time insights, enabling data-driven decision-making.

III. Overall Impact:

The integration of Google products and Miro significantly streamlined the event management process for "JOSH." The collaborative features of these tools improved communication among committee members, enhanced transparency, and allowed

Institute of Language Teaching

Ref :

Date :

for efficient planning and execution. The use of dashboards facilitated quick analysis of event data, contributing to informed decision-making.

Conclusion:

The effective incorporation of Information and Communication Technology, particularly Google products and Miro, by the Youth Welfare Committee played a pivotal role in ensuring the success of the "JOSH" University Level State Sports Event. The adoption of these digital tools not only streamlined the management process but also contributed to enhanced collaboration, efficiency, and data-driven decision-making. The committee's adept use of ICT sets a commendable precedent for future events and underscores the importance of leveraging technology for successful event management.

WHY RECRUIT ILTIANS?

WHY TO RECRUIT
ILTIANS?

English has become the international language for business, science, and culture. Teachers are in demand across the globe. We nurture future teachers.
