## Certificate of Financial Support for Infrastructure at ILT

This is to certify that the Institute of Language Teaching (ILT) operates as a Grant-in-Aid college, facing limitations in its income sources. The Shree Saurashtra High School Trust, entrusted with the management of ILT, extends crucial financial support for infrastructure-related expenses, including maintenance.

Through their unwavering commitment, the Trust plays a pivotal role in ensuring the sustained functionality and upkeep of ILT's facilities. Their generosity significantly contributes to maintaining the high standards of education and infrastructure at ILT.

We express our deepest gratitude to the Shree Saurashtra High School Trust for their continued support, which empowers ILT to provide quality education in a conducive learning environment.

## Water Management Policy

**Date: 22/2/2020**

The institute is committed to improve the management of water and reduce overall water consumption through strategies and actions. The institute has been conserve and implementing number of national guidelines to resources in the campus and proactively seeks measure consumptions manage water to minimize its

The campus seeks to become a ZERO WASTE CAMPUS and strive toward it. In planning and implementing water strategies, a balanced approach is needed that maximize opportunity to align with multiple objectives:

- The institute implies hierarchical approach of Water waste by Reducing, Reusing & Recycling water.
- **Infrastructure:** Ensure plumbing adequacy of water taps and sanitary fixtures. Construct water storage structures to meet campus water requirement & regular upkeep of water tanks in the building.
- Installation of Water efficient fixtures, fittings and appliances (Dual Flush cistern, waterless urinals & etc.) in the campus.
- **Resilience:** Deploy dedicated staff for maintenance of water system in the campus. Update periodic maintenance and repair of leaks.
- **Campus Engagement and Collaboration:** Organize water conservation workshops for the faculty and students on the campus. Organizing water saving events & drives proactively.
- Alternative source: Recharge Ground water through rain water harvesting by collecting runoffs from impervious surface.
- Landscaping & Irrigation: Development of water resilient Landscaping
